DETROIT

To whom may concern my name is Dajuan Marcellus my federal # 45281039. I am currently housed in Livingston County Jail were an illegally ran federal investigation is being conducted. All my due process rights have been violated. The staff has utilized there phone system ICSolutions to play my conversations to inmates they have strategically placed all around me. The staff has manipulated there security rounds to control the camera vantage point. They have communicated with the inmates involved through the kiosk on when the security rounds will be conducted and where they need to be to make it seem as if me and them are talking or some type of communication is being had. The staff have violated the phone agreement that was made when you agree to use ICSolutions. They have put every person housed on this unit lives and health in jeopardy by not conducting timely rounds because of an unfavorable camera angle or vantage point. They have been conducting false rounds not clicking the smart sensors placed on the walls with they are required to do. Bringing the cameras to real time.

Staff has not excluded other people working for Livingston County from participating. Nurses have been asked to alter how they pass out meds. They've been told to stand certain ways to manipulate the camera vantage point. Facility workers who do maintenance on the building have brought in outside cell phones and tried to record still images, take pictures so they could run the camera on a loop. I have been denied medical and mental health treatment. I have heard the informants involved openly brag about how they're going to set me up and how their info that is being given to them will be utilized. The "hearsay" clause they plan on using proximity as well. My knowledge of this ongoing "undercover" investigation has made it extremely hard for inmates and staff involved to succeed. So they have resorted to more and more illegal tactics to entrap me. Livingston County Jail has illegally intervened and meddled in an ongoing investigation violating my due process rights. Illegally playing my conversations, coordinating with inmates housed in my unit that they strategically placed around me to entrap.
